Source Systems introduced new hardware to RMAF show 2016 Company Offers Products with Core Focus on Streaming Media

Denver, CO. (Oct 6, 2016). Source Systems of San Clemente, CA. introduced new products to RMAF 2016 attendees from specialty import manufacturers for high resolution audio and PC audio systems.

First time RMAF showing and demonstrations in **Tower 7014** include:

- **Lumin M1 digital audio system** with streamer, renderer and 100 wrms (4 ohms), internal amplifier and **U1 digital audio network transport**, with bi-directional USB, external dual mono AC to DC linear power supplies and 5 digital audio outputs.
- **Philharmonia by Amadeus** of France. Speakers created for the Philharmonie de Paris recording and mastering studios. Proprietary 64 bit DSP, custom drivers, 700w x 4 proprietary amplification.
- From **M2Tech** of Italy the **new EVO 2 series** which includes the **EVO 2, EVO 2 supply, EVO 2 word/master clock, EVO 2 DAC, EVO 2 DAC Plus and EVO 2 phono-stage**. The new multi-function phono-stage is compatible with MC and MM cartridges, includes an ADC with DSP, a PCM/DXD/DSD256 DAC with clock input and over 18 user selectable phono equalization curves. Most EVO 2 series products include **HID IR system remote** controls.
- **Esprit-audio wire and cables**. Outstanding natural focus and ability. Very precise 3-D sound field. Proprietary materials and connectors. Manta noise reduction. Go beyond CAT7...
- **Sbooster external linear power solutions** and the new Sbooster **Vbus2 USB isolator**.

Source Systems of San Clemente, CA. is dedicated to the import, representation and distribution of high resolution, network and PC audio system components. With focus on the evolution of digital audio, our suppliers develop and manufacture products with innovative, proprietary, award winning and industry leading technologies! For more information, contact Source Systems as indicated above.
